Foreign Inquiries Still Made for THE ONTARIO TRANSMISSION COMPANY, LTD.

Chicago Elevated Railways

Two-Year Five per cent. Secured Gold Notes

To the Holders of Said Notes:

The above obligations were issued July 1, 1914, as part of a plan of temporary financing. Since that date, the City of Chicago has appointed a Commission of eminent engineers to study transportation conditions and to formulate a concrete plan for the unification of all the elevated and surface lines in the city. This Commission is now actively engaged in its labors. Pending the promulgation of such plan and of appropriate municipal action in the matter, it is neither practicable nor desirable to undertake permanent financing; and an extension of the maturity of said notes to July 1, 1919, is advisable and necessary.

The Chicago Elevated Railways has arranged to materially increase the value of the security for all extended notes, and proposes such extension thereof under the provisions of an Extension Agreement upon the following terms:

1. The interest on the extended notes will be increased from the present rate (5%) to six per cent. (6%) per annum, payable semi-annually. New coupon sheets to evidence such future interest will be attached to each extended note.

2. The sum of \$15 in cash will be paid in respect of each \$1,000 face amount of extended notes.

3. In addition to and by way of material increase of the value of the security for said extended notes:

(a) Chicago Elevated Railways will acquire and pledge as security under the Extension Agreement promissory notes of the Railroad Companies, shares of whose capital stock now constitute the sole collateral securities pledged under the Trust Indenture of July 1, 1914, under which the Gold Notes were issued. These promissory notes will aggregate, approximately, \$1,070,000; and, until so acquired and pledged, they rank in priority to the collateral securities under the Trust Indenture of

(b) Chicago Elevated Railways will cause to be similarly pledged under the Extension Agreement as security for the pay-ment of the extended notes, claims or notes representing additional floating indebtedness of the Railroad Companies amounting approximately to \$1,000,000, incurred principally as a result of betterments made to the railroad properties, and now like wise ranking in priority to the collateral securities pledged under the Trust Indenture of July 1, 1914; and

(c) Chicago Elevated Railways will procure an agreement with Commonwealth Edison Company whereby all claims for power supplied to the Railroad Companies after June 30, 1916, and until the Extended Notes shall have become due, will be assigned to a trustee and will be paid only if and as other floating debt of subsidiary companies (except capital debt), is not increased. In case other collateral securities pledged for the Extended Notes shall upon sale prove insufficient to pay such Extended Notes in full, the said power claims then unpaid will be placed on a parity with the Extended Notes.

Except only as the same may be modified and supplemented by the Extension Agreement in respect of Noteholders assenting thereto, the provisions of the Trust Indenture of July 1, 1914, will remain in full force and effect.

The extension of the notes has not been underwritten. The success of the proposed extension depends therefore solely upon the cooperation of the noteholders in availing themselves of the substantial benefits above outlined. The extension does not involve the payment of commissions, and all incidental expenses will be borne by the Chicago Elevated Railways.

Holders of Gold Notes may become parties to said Extension Agreement by depositing of said notes, having first detached therefrom the July 1, 1916, coupon, with the Depositary: The National City Bank of New York, New York; or with either of the following sub-depositaries: Illinois Trust and Savings Bank, Chicago; International Banking Corporation, London. All deposits must be made on or before July 15, 1916, or

such later date, if any, as may be prescribed therefor in the exercise of the discretion and in the manner in the Extension Agreement provided. Should the Extension Agreement not become definitive and effective as therein provided, the deposited notes (or an equal face amount of the same issue), in either event in unextended form, will be returned, without charge, to the holders of certificates of deposit, on surrender of such certificates to the Depositary which issued the same.

The July 1, 1916, coupons will be paid at maturity.

CHICAGO ELEVATED RAILWAYS.

New York, June 19, 1916.

The Union Trust Company of New York has two well equipped Branches for its uptown business—the 38th Street Branch in the heart of the busy Fifth Avenue shopping district, and the Plaza Branch at Fifth Avenue and 60th Street, just opposite the entrance to Central Park.

The facilities of all the offices of the Company are offered to depositors of either Branch or of the Main Office at 80 Broadway.

The Union Trust Safe Deposit Company, entirely owned by the Union Trust Company, conducts modern safe deposit vaults at both Branches. CAPITAL AND SURPLUS, -- -- \$8,162,000
